FinTech leader with 24+ years of experience overseeing critical front-, middle-, and back-office financial applications for premier wealth funds and banks. Proven track record in driving digital transformation, optimizing operations, and strengthening risk management. Seeking a leadership role to deliver scalable technology solutions and drive organizational success.

Directed the full lifecycle of critical financial applications, collaborating with internal and external stakeholders across implementation, integration, audit reviews, and BCP/DR planning. Designed and executed robust support frameworks to optimize operational efficiency and ensure strict regulatory compliance.

Knowledge Purview

Financial Sector Expertise	Proven track record navigating complex wealth fund and banking environments, leveraging deep industry exposure to drive strategic technology initiatives.
End-to-End Systems Management	Managed critical Front, Middle, and Back Office systems, including execution platforms (Citadel ERAM, FlexTrader), Portfolio Management Systems (WallStreet Suite, FlexOne), and payment infrastructure (SWIFT).
Product Lifecycle & Delivery	Expert in Agile, Waterfall, DevOps, and CI/CD methodologies, effectively managing financial technology solutions from inception through retirement.
Operational Excellence & Compliance	Designed and implemented robust support processes to optimize operational efficiency, minimize risk, and ensure strict compliance with regulatory guidelines.
Risk Mitigation & Resilience	Maintained organizational resilience by directing risk management, quality control, disaster recovery, and business continuity planning (BCP) frameworks

Work Domains / Competencies

Work Experience

VP Production Engineering – Liquidity, Funding & Risk Technology

TD Securities - 07/2022 - Present

- **Continuous Process Improvement:** Identified and executed system efficiency enhancements within TD Securities to drive innovation and agility in response to evolving market dynamics.
- **Regulatory Compliance & Governance:** Enforced stringent compliance standards, aligning all technology solutions with internal policies and regulatory requirements for Credit and Market Risk.
- **Enterprise Risk Integration:** Led the implementation and management of core technological solutions for Credit and Market Risk domains, driving integration across all TD Securities business units.
- **End-to-End Application Lifecycle:** Executed full lifecycle activities—including research, analysis, administration, and deployment—for new and existing technology frameworks.
- **Critical Systems Administration:** Overseen the administration of high-availability systems and applications to ensure operational resilience and reliability across risk management functions.
- **Strategic Technology Leadership:** Directed technological advancements and innovation initiatives in Counterparty, Credit, and Market Risk management to maintain competitive industry standards.
- **System Performance & Risk Infrastructure:** Managed the availability and performance of enterprise technology solutions to ensure optimal functionality and support robust Counterparty, Credit, and Market Risk frameworks.
- **Cross-Functional Stakeholder Support:** Served as the primary liaison for Front, Middle, and Back Office stakeholders, resolving technology inquiries and optimizing risk management application workflows.
- **Incident Management & Continuity:** Resolved technical challenges and system glitches promptly to minimize operational disruptions and maintain continuous risk management operations.

Senior Specialist (Investment Management Systems) –

Abu Dhabi Investment Authority (ADIA), U.A.E. - 09/2016 - 06/2022

- **Investment & Payment Systems Alignment:** Aligned enterprise Investment Management and Payment Systems with strategic objectives via comprehensive requirements analysis and process modeling. Managed high-value platforms including **Wallstreet Suite**, **FlexOne**, **FlexTrader**, and broker platforms like **OTCX** and **BIDS Trader**.
- **Product Delivery & Stakeholder Engagement:** Directed all phases of product management—including implementation, integration, and change management—utilizing elicitation workshops and focus groups to align solutions with business requirements.
- **Vendor Relationship Management:** Managed key vendor relationships across project lifecycles and major system upgrades, optimizing third-party efficiency and collaboration.
- **Support Architecture & Onboarding:** Designed streamlined support workflows and onboarded tiered support teams (L1/L2/L3) to optimize technical issue resolution.
- **FIX Connectivity & Interface Development:** Managed FIX protocol relationships with major brokers and trading venues (**LSE**, **NYSE**, **TradeWeb**, **FXAll**) while developing interfaces for market data and back-office applications.

Specialist – Payment Systems - Abu Dhabi Investment Authority (ADIA), U.A.E.

11/2001 - 08/2016, Growth Path: Consultant - Software Engineer (11/2001 - 09/2003) | Software Engineer (10/2003 - 06/2007) | Senior Analyst (07/2007 - 05/2011) | Specialist – Payment Systems (06/2011 - 08/2016)

- **Specialist – Payment Systems (06/2011 - 08/2016):**
 - **SWIFT Architecture & Infrastructure Ownership:** Acted as SWIFT Architecture Owner, overseeing application infrastructure across three sites.
